

# New Books & News

April 2022 @ the [NOAA Central Library](#)

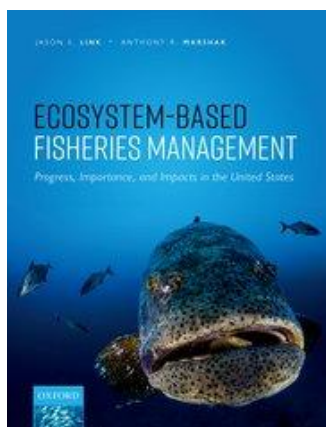

We hope the following reminders about Library services and tools are helpful as we continue our telework into 2022. We are here to serve you!

[See our remote access guide for more information.](#)

**Did you receive a test email from Katie Rowley and donotreply@libconnect.com?** If so, no need to worry—this was a test email for our exciting, new email subscription service, which we hope reaches all the right people next time!

## New eBooks

Interested in purchasing this book yourself? We have a [30% discount code](#) from the authors: **ASPROMP8**

**NOAA Authors Publish: [Ecosystem-Based Fisheries Management: Progress, Importance, and Impacts in the United States](#) by Jason S. Link and Anthony R. Marshak**

**Many thanks to Drs. Link and Marshak's generous donation of a print copy of their new book to the NOAA Central Library. Read it in print or online.**

[“Ecosystem-based fishery management \(EBFM\) is rapidly](#) becoming the default approach in global fisheries management. The clarity of what EBFM means is sharpening each year and there is now a real need to evaluate progress and assess the effectiveness and impacts. By examining a suite of over 90 indicators (including socioeconomic, governance, environmental forcing, major pressures, systems ecology, and fisheries criteria) for 9 major US fishery ecosystem jurisdictions, the authors systematically track the progress the country has made towards advancing EBFM and making it an operational reality.”

Offered on our platform [Ebook Central](#), this book:

- Describes the progress towards operationalizing an ecosystem-based approach to fisheries management (EBFM) with an emphasis on accessibility, clarity, and levity
- Analyzes a geographically and temporally broad set of data
- Includes “real world” case studies and examples, documenting the practical applications of the methods discussed
- Covers the entire range of metrics and indicators appropriate for a coupled socio-ecological system, providing a broad and comparative analysis
- National in scope but global in relevance

Read more from the authors: [A more holistic approach to fisheries management: including all the players](#) in tomorrow's OUP Blog (live April 2, 2022)

**Workplace Violence Prevention Month - 2022: Library teams up with NOAA's Workplace Violence Prevention and Response (WVPR) office to bring you Anita Hill's new book and highlight her upcoming seminar**

Find Anita Hill's: *Believing: Our Thirty-Year Journey to End Gender Violence* on the library's ebook platform [Overdrive](#) ([Audiobook](#), [Ebook](#))

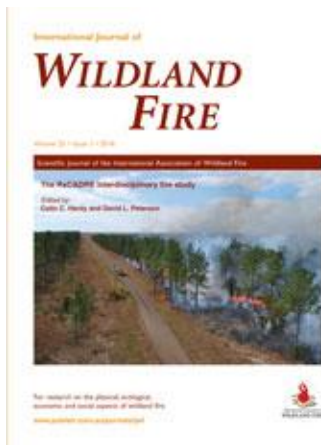

"From the woman who gave the landmark testimony against Clarence Thomas as a sexual menace, a new manifesto about the origins and course of gender violence in our society; a combination of memoir, personal accounts, law, and social analysis, and a powerful call to arms from one of our most prominent and poised survivors."

**Register** for the seminar on April 5th 2-3:30 PM ET (limited seats available):

**This Month: National Library Week April 3-9, 2022**

Join the library for National Library Week! We are hosting five special seminars with NOAA librarians to highlight the work NOAA Libraries do for you. [Click here to register for all five sessions!](#)

**Monday, April 4th at 12pm ET**

NOAA Central Library Director, Dee Clarkin, will highlight what you can *discover* in your library and the libraries of the NOAA Library Network

**Tuesday, April 5th at 12pm ET**

Contract Librarian, Jan Thomas, from Betty Peterson Memorial Library in College Park will join us to talk about how NOAA Libraries provide *access* to materials and resources

**Wednesday, April 6th at 12pm ET**

Outreach Librarian, Katie Rowley and the NOAA Central Library Outreach team will tell us about Library Seminars and how we *connect* you to your colleagues

**Thursday, April 7th at 12pm ET**

Senior Bibliometrics Librarian, Sarah Davis will inform us about *empowering* researchers to reach their potential through our Bibliometrics service

**Friday, April 8th at 12pm ET**

Head of Public Services, Trevor Riley will discuss the *trusted* professional services of the library's Reference and Research teams

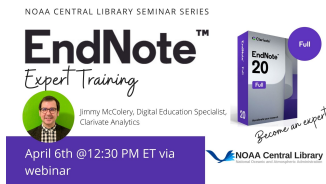

---

**Training**

**Fancy yourself an EndNote expert?** Come with your questions to our April 6th 12:30 PM Eastern training with Clarivate Analytics.

**Register:**

## **Staff Corner**

Hi, I'm Claire! I'm a contract librarian with MPF-ZAI working at NOAA Central Library. I joined the library one year ago in March 2021, and I work with the reference, research, and outreach teams.

My work includes creating graphics and videos to promote and support library services, including the [Library Seminars FY21 Annual Report](#) and other infographics you may have seen in previous library emails. My most recent project was editing the [Research Services Testimonial Video](#) to demonstrate how the library enhances research for the NOAA community.

Before joining NOAA, I contributed to the paper, "Librarians Fostering Collaboration: Future Roles for Leading Campus Communities of Research Practice," which you will be able to read in *portal: Libraries and the Academy* later this year. Related to that work, I am interested in how the NOAA Central Library can support you by connecting you to your colleagues, so I am developing and leading the library's new [Research Methods Seminar Series](#). I hope you consider submitting your idea and presenting with us!

Check out our current [Library Seminars](#) to discover new ideas and connect with NOAA experts.
